

# A PREMIUM SELECTION OF TONICS AND MIXERS – THE PERFECT PARTNER FOR YOUR GIN

FRANKLIN & SONS is an award-winning range of tonics, mixers and soft drinks, which were first introduced in 1886. The products continue to follow the same ethos today, using only natural flavours, extracts and colours and never include preservatives or sweeteners.

By sourcing the best possible provenance of ingredients, the results are a well-balanced range of drinks which are perfect for pairing with a broad range of premium spirits found in the best bars.

Each variant within the mixer range is made using Staffordshire spring water, the low mineral content complements the flavours of each drink by bringing out the botanicals in spirits. By introducing the highest carbonation possible, the high effervescence serves to release the botanical aromas immediately, improving the sensory experience for your customers.
